Lowest possible heat build-up on all materials guarantees perfect working conditions.

**The JOTA polisher and brush assortment has a large selection to deal with any polishing task on every material. Studies demonstrably show that high gloss polished surfaces increase the lifespan of any restoration.**

The JOTA polisher and brush assortment is matched to suit common dental materials. Lowest possible heat build-up on all materials guarantees perfect working conditions – from superior fine trimming to high gloss polishing. Apart from

a large selection of different miniature brushes, JOTA also has polishers in its programme. Polishing pastes and a high gloss emulsion round off the JOTA polishing range.

### High quality products

Unvarying quality is guaranteed by high-quality raw materials.
